

Charging Lockers

Secure storage and charging.

Socket & USB in one outlet. Suitable for a variety of electronic products.

Large Locker

Medium Locker

Charging lockers help improve security for electronic assets

Small Lockers in 3x3 Set

NLT's Charging Lockers are available in a variety of shapes, sizes and colors, with three secure locking options to meet your site's specific needs. Designed to safely store and charge personal electronic devices, these lockers help reduce workplace distractions—improving focus and boosting overall productivity.

These heavy-duty charging lockers are easily monitored by NLT's industrial-grade cameras and deliver a secure, stress-free experience for every team member.

KEY BENEFITS

- Easy to use with built-in charging options: 120/220V, USB-A, and USB-C outlets
- A safer, smarter alternative to standard lockers
- Secures electronic devices like phones, tablets, and laptops—helping prevent theft or unauthorized removal from site
- Reduces risk of data breaches by keeping sensitive devices on premises
- Built from heavy-duty, rustproof industrial plastic for long-lasting durability
